THE UFO DOCUMENTARY SHOWN ON TV CHANNEL 5, 1 NOV.06

The much advertised TV documentary on 'The British UFO Mystery' was shown on Channel 5. It was described as 'the unexplained case of a UFO which appeared over British airspace' on the night of the 30/31 March 1993 and was reported by a host of observers, including the police and several military (RAF) personnel.

The programme was devoted almost entirely to the work of Nick Pope in his position of UFO investigator for the Ministry of Defence

It gave a surprisingly balanced viewpoint of the whole incident throughout the programme.

There were for instance the comments of UFO sceptic David Clark when it was revealed that a Russian satellite booster rocket (Cosmos 2238) had entered the Earth's atmosphere and burnt up in a trail that would have passed over SW England where initially several Policemen had reported the glowing lights passing overhead. There was a doubt raised about the credibility of the witness sightings, but in an interview with UFO buff, Det. Const. Garry Hestletine, he made it quite clear that policemen were trained observers and if they said they had seen something, then they had seen it!

Home defence radar tapes had also shown that there had been radar returns on an aircraft flight passing over a military airfield at the time of the reported UFO sighting. David Clark gleefully stated that this accounted for the UFO reported sightings.

However, Nick Pope was not satisfied that this was the answer and pursued the eye witness accounts and radar reports further. He was able to establish that the radar report was not the answer, as the eye witnesses had shown that the delta shaped UFO was at a low altitude, a mere couple of thousand feet as it passed over the airfield, while the radar report established the over-flying aircraft had been at 20,000ft!

After exploring numerous possible explanations, Nick Pope then arranged through official sources, for the American Government to be questioned about the possible involvement of an American Military 'Stealth' aircraft as being the culprit of the UFO reports. A reply was later received stating that there was definitely **NO** USA involvement in the incident, but in retrospect, they raised the question- did the UK military have a secret 'Stealth' aircraft flying over USA airspace, as they also had similar UFO sightings that they could not account for!

The TV 5 Channel described this UFO incident as an incredible event! They treated it as though it was a 'one off'. Little did they realise that between December 1994 and May 1995, we had fifty two 'Flying Triangle' (FT) incidents over and around Derby! This included one hovering over the 'Spider Island' traffic junction during the evening rush-hour!

Video's of the above TV programme are available to members at a cost of £4 incl.pp: Apply to O.Fowler.

(Nick Pope)

UFO LIGHT SEEN OVER 'HEANOR' Derbys. 9th October 06.

The Report below has been sent in by a UFO witness, to the PRA for investigation:

I've been seeking answers to a possible UFO sighting that was witnessed by myself and at least 3 other people in Heanor, Derbyshire on Monday 9th October at around 8.00pm.

I would just like to point out before I give a description of what happened that I use to fly Grob109b aircraft at RAF Linton-on-ouse - with over 160hrs and spent most of my childhood in and around airbases in North Yorkshire.

I work on Heanor Gate Industrial Estate at a reprographics company - the company has a non smoking policy, so when a break is taken both myself and a couple of colleagues go out to the front of the building for a smoke.

At the time in question we were having a cigarette when two of us noticed a large orange light moving North to South - I would say at about 4-5000ft at about 100 - 150knts. We both commented at the time it didn't seem like an aeroplane, no noise, no strobes, just a large orange light - although it was travelling roughly the same speed as other aircraft approaching East Midlands.

This led us to believe it may have been the Police Helicopter which frequently flies over the area.

Whilst we watched the object - bit hard to describe but here goes - it split. A smaller illuminated orange object descended through the cloud and we lost sight of it behind buildings.

The main object then ceased to be illuminated, became dull and moved off heading South at a greater speed but same height as before. We never saw what happened to the smaller object as it disappeared behind the building we were stood in front of. It made no noise - another reason to believe it wasn't an aircraft heading into East Midlands.

Whilst 3 of us saw it that evening it wasn't until we spoke to one of the cleaners who had just left the building to get a lift home that she too confirmed she had seen exactly the same sequence of events as we had as she drove home to Ilkeston.

We have received a fair amount of ridicule over the sighting from colleagues at work - but I cannot deny what we witnessed that evening.

I write this to see if anyone could possibly enlighten us as too what we may have witnessed that evening. I would also say that we were surely not the only people to witness what occurred and was therefore wondering if any other reports had been made on the night in question?

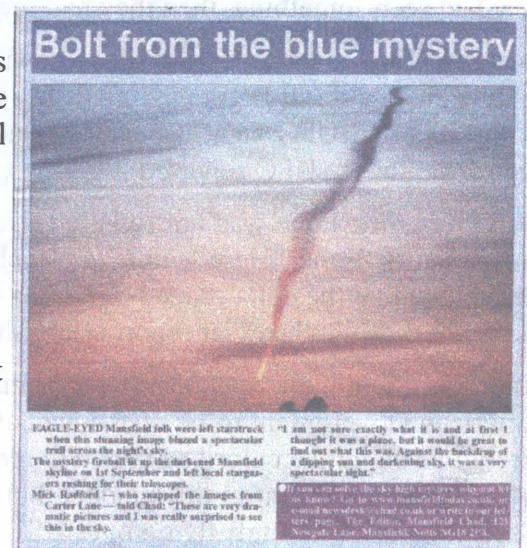

UFO TRAIL OVER MANSFIELD 1st SEPT.06

There have been a number of unidentified flying orbs and lights reported around the Midlands area in recent weeks. The picture shown on the right has been taken from the 'CHAD' local newspaper of the 13th September, covering the Mansfield area.

This mysterious fireball lit up the night sky and was snapped by CHAD reader Mick Radford, who told the newspaper "These are very dramatic pictures, I was really surprised to see this in the sky. I am not sure exactly what it is and at first I thought it was a plane. It would be great to find out what this was. Against the backdrop of a dipping sun and darkening sky, it was a very spectacular sight."

ILKESTON (DERBYSHIRE) 30 OCTOBER 06 10.37pm.

While standing in the garden of my home in Ilkeston, I saw 3 small orange (seemed like they were burning) orbs passed over me. They were each about the size of tennis balls. As they were in motion, one flew past the other...keeping about the same distance between themselves, they were definitely not attached, they shone quite bright, but not but not brilliant, left no smell or aroma and were definitely UFO! These were really close....about 25 meters above my head... They appeared to making a descent I didn't hear any noise and I would be interesting to see if anyone else spotted them... Lindsay Pomfrett

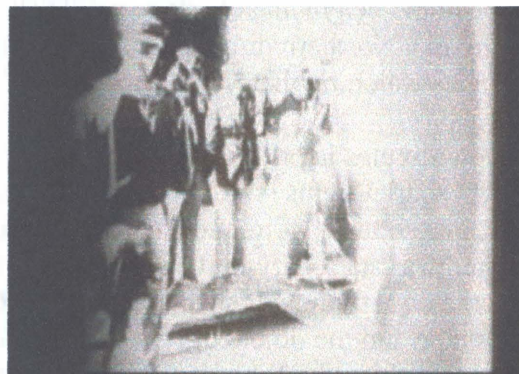

AMAZING NEW ALIEN FILM FOOTAGE REVEALED

A short piece of film footage that runs for about 25 seconds and appears to show one of the Roswell Aliens being lowered on a stretcher, has recently appeared on the internet.

<http://video.google.ca/videoplay?docid=-4139287160539051614&q=mexico%2Bufo>

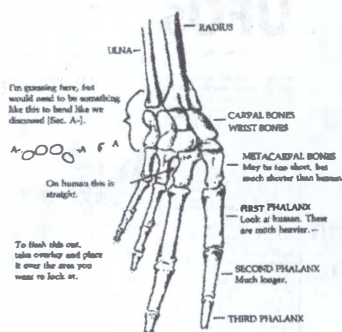

After the fiasco of the 'Alien Autopsy' film, one tends to treat any new Alien footage with suspicion. However, there was something about the hustle and bustle of the scene that struck me as being authentic. The picture on the right shows the arrival of the Alien on a stretcher, surrounded by American military personnel.

What I noticed immediately in the wavering black and white footage, were the uniforms worn by the onlookers. I remember the American uniforms of the period and I instantly recognised the American MP's uniform and laced gaiters that appeared briefly on the scene. The uniformed American Air Force officers were also correctly dressed for the period. What also impressed me was the obvious activity and excitement as the stretcher was lowered and the onlookers crowded around the Alien figure on the ground, causing the cameraman to momentarily lose sight of the Alien in the ensuing melee. (See picture on the right).

The film (which I believe was probably taken by a privately owned 8mm movie camera), showed scant detail of the Alien in close up. We have however been able to extract certain details from the film, such as a 'still' shot of one of the Aliens hands, showing what appears to be five fingers and a thumb (see right picture). This does not compare with the details of an Alien hand, sent to me by the late Leonard H. Stringfield in 1984 (see below). However we are aware that there are at least fifteen different species of Aliens visiting our planet!

—Reed 9/6/80

A fuzzy picture taken from the movie (right) appears to show some kind of footwear attached to the Alien foot. This is unusual and implies that the Alien could have been in a gravity field environment, rather than 'floating' around in their craft.

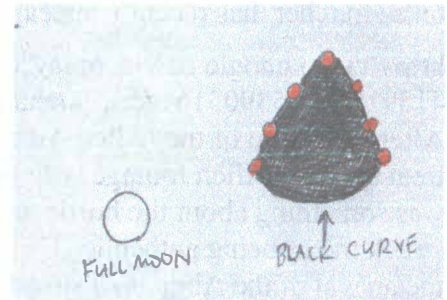

Omar Fowler

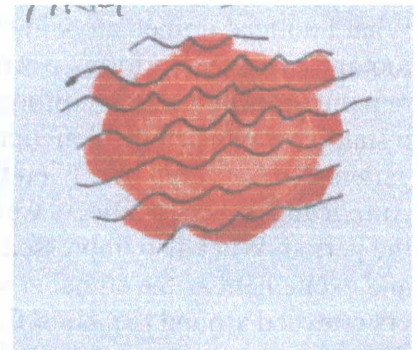

UFO'S OVER DERBY - 9th September 06.

Miss HJ reported that on the night of the 9th Sept. at 12 minutes past 10, she noticed 2 bright scarlet lights moving together across the sky, as though they were connected by an unseen craft. They appeared to be at the height an aeroplane would fly, but they made no sound. They moved directly overhead travelling in a Northern direction at great speed (faster than an aeroplane) and they suddenly vanished, while she was watching them.

Seven minutes later, Miss HJ noticed a 'V' shaped arrangement of 6-7 bright scarlet lights (similar to the previous report) quite high in the sky, in a southerly direction. The object to which the lights were attached was stationary in the moonlit sky, the witness was able to make out the dark triangular shape of the object. The lighted edges formed a 'V' shape and the other edge was curved. Then the object began to move southwards. "I had a sensation of being watched and I ran indoors". Both sightings were also seen by a visiting friend.

Miss HJ had previously observed a bright red "Frisbee-like disc" travelling across the sky at 10pm on the night of the 3rd September 06. "As it sped across the sky, it rippled, like a reflection in water. It moved so fast, it vanished heading towards the south, within a matter of seconds. (Two pet rabbits in cages were kicking and moving about during the crafts passage).

Could 'CHINESE BALLOONS' be responsible for an increase in 'Balls of Light' sightings in the area?

The 'Chinese Balloons' are being sold in Heanor, a town approx seven miles north of DERBY.

A late report:

I witnessed on the 14th of September an orange ball of light travelling over our village of Swanwick, Derbyshire from a westerly to easterly direction, this just disappeared, this has also been spotted by my sister on Saturday night the 16th as well, tonight the 19th my mum and dad both witnessed this ball of light again over our village again travelling from a south westerly to north westerly direction at 8.50pm. there was no noise and no other lights flashing as on a plane or helicopter, please contact me on any information thanks .

UFO DATA MAGAZINE & WWW.UFODATA.CO.UK

Presents The second Great British UFO Show (October 21/22)

Several members of the PRA visited the two day show held at the Leeds Rugby Supporters Club, a pleasant venue with individual tables having a clear view of the stage and screen presentations.

Your Editor attended the show on Sunday, with Secretary Karen Richardson and we were pleased to meet PRA members Colin Saunders and Felicity Jones in the audience.

The Sunday programme consisted of a presentation by the **LAPIS UFO Group** of local sightings, followed by an intriguing introduction to the latest Crop Circle photographs and theories by **ALAN FOSTER**. He discussed instances of 'lights' and 'globes' being seen in the vicinity of the Pictograms and the bent stems and 'burn marks' being found on the wheat stems. *(This information is already on our website, having been the subject of a presentation by Omar Fowler at the 'Second International CCCS Conference' held at the Guildhall, Bath in August 1993).*

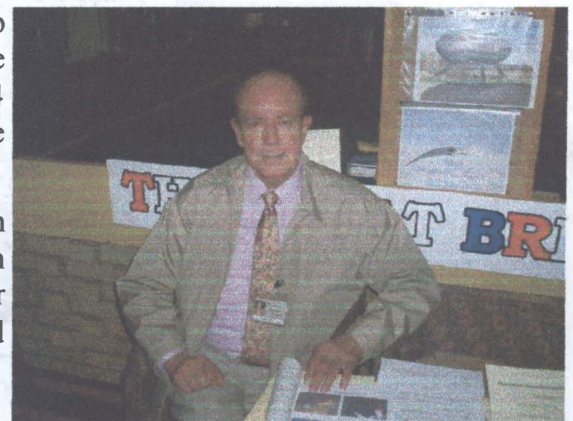

Alan also delved into the paranormal when he revealed that 'Angels' had been sighted at the scene of the 9/11 disaster in the USA. He also mentioned a connection with their presence and the 'souls' of the unfortunate victims. This may not be so bizarre as it may sound, as the PRA interviewed a woman with psychic abilities (living in Ilkeston) in November 2002.

She had been shown the 9/11 disaster before it took place, by Aliens.... "I was physically upset...I saw the tall buildings and these beings with long white robes standing next to me...I saw the impact of this fireball hit the tall buildings, I knew that all these people had been killed...I said- can't you stop this? They said **they can't intervene, but they would be there when those 'souls' left their physical bodies and they would be there to help them.**" (Mrs. WPM's husband confirmed that she had told the family about the 9/11 disaster days before it happened!).

The afternoon session of the UFO show started with an introduction into the world of Col. Philip Corso ('The Day After Roswell') by **MAURIZIO BIATI** who had interviewed Col. Corso in Italy. A video of the interview was shown on screen and Maurizio added his very interesting observations about the Col. And his participation in 'intelligence' operations in Rome during the post-war era.

Finally, **RUSSEL CALLAGHAN** (organiser of the 'Show' and editor of UFO DATA Magn.) presented his summing up of the years UFO activities with video clippings and welcome news that 'UFO DATA' magazine will be changing to A4 format, with an increase in the number of pages early in the New Year.

Russel also touched on the speakers for next years 'British UFO Show'. He delighted the audience, who responded with clapping, when he announced that the American researcher **Kevin Randle** and Roswell star, **Dr. Jesse Marcel Jnr.** had been booked to speak next year!

An excellent 'Show' this year and greater things to come!

(Photo : OVNI Editor and Group Leader Omar Fowler promoting the PRA at this years show)

MYSTERY SURROUNDS THE 'PORTSMOUTH' PHOTOGRAPHS?

We have recently received a letter from Ernie Sears, the UFO and Psychic Researcher and a prominent member of the Southampton based SUFORG group. Ernie has commented on the high 'strangeness' surrounding the mysterious UFO photographs taken by George Warner, over Portsmouth.

Ernie Sears states: You commented in the OVNI why nothing has been reported by the Portsmouth public? I can tell you that NOTHING...repeat NOTHING is seen by ANYONE, even our photographer, thus being the same as others in Mexico etc. It may be the result of an 'invisible' cloak produced by the alien/humanoid species...quantum physics is the phase that springs to mind.

George Warner has two digital cameras (*and appears to just 'click' away at random across Portsmouth*). I have spent hours at the Portsmouth Harbour/Gosport ferry site with him and I know EXACTLY that he cannot see beyond 3 metres and he has to peer very closely into the viewing screen after his exposures. We usually view the exposures in a nearby café BEFORE he takes his cameras home, where he prints the best ones (a very lengthy task).

It is a FACT that he will sometimes spend all day filming the busy harbour, producing eighty exposures, that may produce just TWO worthwhile prints...sometimes NONE! Sometimes he produces two pairs of objects after only the first two exposures!

We have tried various procedures such as lending the cameras to acquaintances, myself included, but they produce NOTHING! Borrowing THEIR cameras, George also gets NOTHING! We have also shared in unison exposures ...counting down and at the same target and get NOTHING. Of course that doesn't solve anything!

Since August 05 we have accumulated some 200 objects...quite a few 'orbs' and some triangular objects. We have one photo where we can count fifty-five 'orbs' that cover the whole print! (Ref. Mexico)

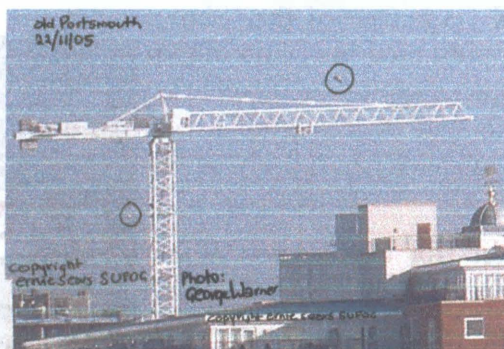

Plenty of 'Birds' have been caught and there was much discussion over those before we put them on one side, in my files. Some are admittedly 'odd'.

George and I agreed some time ago that he had been 'chosen' and that the events are 'controlled', the purpose being gradual 'exposure' to anyone that has a mind that is suitable. I use the term 'spiritual' for want of a better one, since I am able to relate to that, having become a 'healer' following the last of my sightings/encounters in 1978.

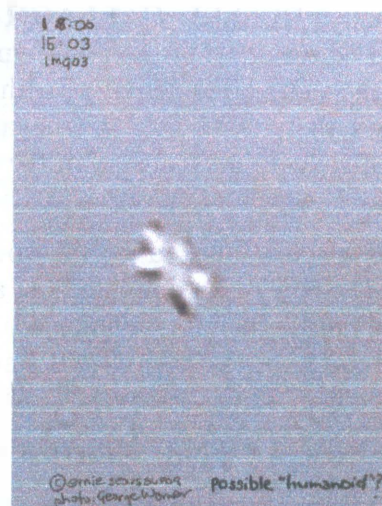

I have discovered that George had a couple of 'spiritual' events as a child and at least two UFO sightings post-war, while at a Royal Observer Corps post at Southsea (Portsmouth).

It seems that the objects/craft/humanoids are only visible for a few seconds to those that are 'chosen'. (The cameras are set for a three second exposure).

Ernie Sears

A selection of the latest photographs taken by 'George' over Portsmouth

NEWS FROM NEW ZEALAND

Subject: Sth Island 'Meteor'

UPDATED 4.15pm Wednesday September 13, 2006

By Belinda McCammon (New Zealand Herald)

With thanks to Ian Lucas of TUFOIG and Susan Hansen UFOCUS

A commercial airline pilot believes space debris flashed across southern skies in front of his cockpit as he flew over North Canterbury yesterday. The pilot -- who did not want his airline or name published -- said an object similar to a meteor -- "but different" -- flashed in front of his cockpit over Hanmer about 3pm yesterday.

The pilot said he did not believe it was a meteor because it was spinning and had reminded him of the debris from the United States space shuttle Columbia when it had exploded. The first officer also witnessed the object but the pilot doubted any passengers would have seen it because it passed directly in front of the plane. "First time I have ever seen anything like that during the day," he said. The object was gone within seconds and it was impossible to judge how far away from the plane it had been, or the length of the object. "It just had a very bright light and a smoke trail." The pilot told air traffic control what he saw. He said they were over North Canterbury at the time, at about 20,000 feet, in descent.

Scientists today determined that an object thought to be a fragment of a meteor -- handed to police last night by a property owner who found it in a paddock at Dunsandel, 40km south of Christchurch -- was not radioactive. - NZPA

Sue Hansen sent the PRA a DVD containing two short videos taken by two witnesses who had a sighting down the lower North Island. They are both credible witnesses and Graeme (Sue's colleague) and Sue have interviewed them at length. The DVD also included a still shot of the light configuration and a daylight photo of the distant hill that the light/object was observed over.

Sue explained that like many witnesses, they used the zoom to capture the lights, and did not get a long shot with other night lights in the foreground, which would have helped us to estimate its distance.

Graeme (Air Traffic Controller) has established that it is not an aircraft or a helicopter.

We (UFOCUS NZ) have had several sighting reports that resemble 'black triangle' sightings, and it is possible that this sighting could be the same. I thought you might like to have a look at the 2 short videos and study them, as on the video clip, you can see the 3 lights turn on a flat plane in formation, (*see photo*) before the lights/object moves off. At the time that this sighting occurred, there were numerous sightings of strange lights around the lower North Island. The air force confirmed to us that they were not their aircraft. (1st August 2006).

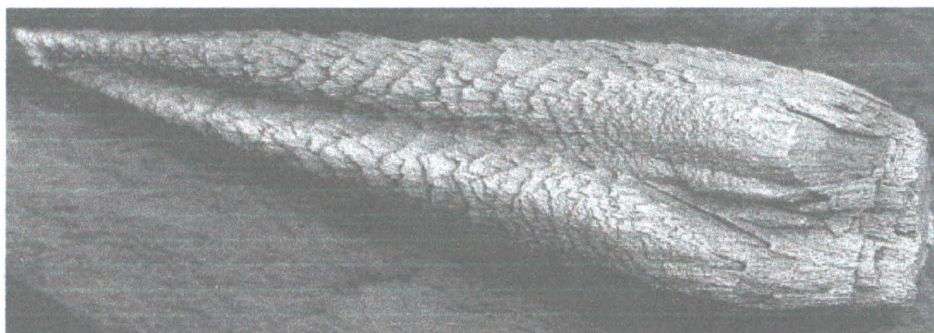

A few days ago we had what appeared to be a meteorite burst into the atmosphere and hurtle across areas of the South Island, causing a sonic boom that frightened the life out of many people! (See article above). You may have seen it on your TV news.

At first astronomers thought that it had either hit our atmosphere and bounced off, or entered a section of the atmosphere and bounced out again. However, witnesses reported that it had appeared to explode into 3 main pieces, with a fiery shower of debris streaming from it. A farmer's wife found a large piece of debris, which is being examined by scientists. So far they have established that it is not a piece of a meteorite, and could be space junk.

THE 'BOB WHITE' STORY? (Continued)

"We are dealing with the biggest story of the Millennium": Stanton Friedman

The above Object was recovered from Bob White's UFO encounter in 1985 near Grand Junction, Colorado. Bob saw two lights, one on top of each 'ship', with one of them ejecting material. This may be a piece of the extraterrestrial metal! It has been tested extensively and it has been stated that this material has not been manufactured on Earth!

A sample was cut off by the NIDS and Bob himself finally succeeded in cutting off a sample after 2 1/2 hours working with a hacksaw, during which time he broke one blade and ruined the teeth on two other blades.

"The material was tested by The National Institute For Discovery Science and a facility at Los Alamos". Altogether a total of 8 laboratories tested the material over a period of 10 years.

The test samples showed that the material was 85% pure Aluminium and the remainder was made up of 30 different rare Earth elements of which a small amount has still not been identified.

An analysis of the material produced the following results: **Aluminium, Chromium, Magnesium, Iron, Manganese, Vanadium, Strontium, Cobalt, Zinc, Barium, Titanium, Oxygen, Calcium, Gadolinium, Copper, Iron, Sulphur, Chlorine, Sodium, Potassium, Copper, Phosphorus, Magnesium, Nickel, Gallium, Molybdenum, Yttrium, Europium, Cadmium and Zirconium.**

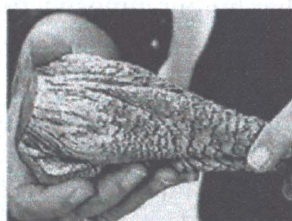

Another interesting revelation has been the fact that this piece of material produces an electrical current, one and a half volts in less than three hours. It has also been tested for radiation, but has shown no signs of being radioactive.

A document claiming to have originated from American security services shows what appears to be a similar piece of metal, having been discovered in the 1940's. The exact circumstances of the discovery are unknown.

There we must leave the story so far...This piece of material (we are told) did not originate in our Galaxy and its origins must remain a mystery at present.

We would have liked to have learned more about the circumstances of its retrieval, but at the moment we have presented the only information that is available.

Bob White Object

1940's CIC Document

RADIOACTIVE FALLOUT FROM A NUCLEAR WEAPONS TEST & THE UFOs

A Report By Daniel Wilson, Ohio, USA. (Edited)

On April 22, 1952, a USAF B-50 bomber released an atomic test device over the Nevada Test Site (NTS). The device exploded with a yield of 31 kilotons, resulting in a mushroom cloud that reached 42,000 feet. This radioactive fallout cloud moved off in three separate directions as can be seen on the map at: (<http://www.aracnet.com/~pdxavets/ts03trg.gif>). This shows the trajectories at several altitudes. Each trajectory is labelled with a letter. The numbers along these trajectories indicate the position of each trajectory at 0000 GMT for several days following the explosion.

Trajectories A, B, and C moved to the south of the Nevada Test Site and then curved to the west and then to the north and travelled up the West Coast of the US and on into Canada. Curving to the east, by April 27, 1952 these three trajectories were moving southeast and south mostly over Western Michigan and Lake Michigan. Track E moved mostly east away from the NTS and was moving over New Mexico by April 23, 1952. Track D moved southeast and east and by April 24 was moving over Southern Texas.

(<http://nuclearweaponarchive.org/Usa/Tests/Tumblers.html>)

Over the years there have been many assertions that there may be a UFO/nuclear connection, such as UFOs being reported near atomic weapons plants such as Oak Ridge plant and the Hanford plant. UFOs have also been reported at Los Alamos, and Sandia Base in New Mexico, and at Killen Base in Texas where nuclear weapons were stockpiled. If this assertion is correct then we might expect to find UFO reports coming from areas where nuclear weapons are being tested and perhaps even in areas where radioactive fallout is moving over and raining down to the ground. Let us see what happens when we work with this theory.

As the 40,000 foot trajectory, the E Track on the map <http://www.aracnet.com/~pdxavets/ts03trg.gif>, moves east it passes almost directly over Albuquerque, New Mexico, on April 23, 1952. On this day, Carl Hawk of the Sandia Corp, at Albuquerque, he and his friend Mr. Harvey observed a soundless, flat and rectangular wing-like object streaking though the sky. The object appeared to be approximately 60 feet by 20 feet and had an eerie glow about the object. The object appeared to be moving at 200 to 400 miles per hour at about 2000 feet altitude. (1)

The 30,000 foot trajectory, the D Track, moved over southern Texas, on April 24, 1952. On the evening of April 24, 1952, Mr. Leslie M. Parks, while sitting in his car at a Drive-in movie, observed two groups of round or oval-shaped objects that were dark orange in color, moving from south to north in the sky over Waco, Texas. The objects were also seen by Mrs. Parks and his daughter Vera Parks.

See the Project Blue Book-<http://www.bluebookarchive.org/page.aspx?PageCode=MAXW-PBB10-216>

On April 24, 1952, at Austin, Texas, several witnesses observed two groups of red glowing objects in the sky travelling south to north at a high rate of speed. (2) Trajectory D passed over just south of Austin. Tracks A, B, and C, all moved south from the Nevada Test Site, before turning west and then north up the west coast of the United States. By April 24, 1952, all three trajectories had moved into Northern California, either over the San Francisco area or east of it. On April 25, 1952, a dramatic sighting of UFOs took place at San Jose, California, approximately 40 miles south southeast of San Francisco. Two scientists, one a biochemist and the other a bacteriologist, observed a metallic-looking disc, and three other round black objects manoeuvring overhead. On April 27, 1952, at 1100 CST, at Royal Oak, Michigan a man observed a stationary object high in the sky that was the shape of a paper plate. See the Project Blue Book- <http://www.bluebookarchive.org/page.aspx?PageCode=MAXW-PBB10-24>

(Ed: This much shortened report is an example of the excellent research being carried out by Daniel Wilson)

FURTHER THOUGHTS ON TRIANGLES & UFO'S

By Bill Foster

It has been almost a year since our book: **'THE BLACK TRIANGLE ABDUCTION'** was published. For those of you who have not read the book, (shame on you), a brief synopsis is necessary.

In November of 1996 my wife, myself and another couple were taken inside our car, up into the belly of a massive flying triangle. The car came to rest on a seemingly slate or granite floor. We were in a massive structure that appeared to me like the deck of an aircraft carrier with a domed roof on it.

I saw fourteen gray aliens surrounding the car and all four of us were floated out of the vehicle and taken in separate directions. My wife and I, at the least, were examined extensively. I subsequently found out, through over two years of regression hypnosis, that I had been abducted **at least thirteen times**, over my lifetime. That is from age five through age sixty-two!

The book details much of this during our years of hypnosis. Many details have slowly come back to me over the past six years. The remembrances start as a vague fog and then crystallize over time.

Here then, some of the items that were not in the book.

CURVATURE:

Every wall, deck, doorway, room, table and bench that I ever saw aboard any alien vessel was always rounded. There was never a straight edge or a sharp or square corner.

If you think back to the "art deco" period of the early 1950's you will remember, if only from movies, that all of our furniture, lamps, dishes, glasses and coffee tables were round or rounded. If you were wealthy or trendy during that period of time your home was filled with lots of a new invention called PLASTIC. Plastic was most commonly molded then into round or oblong shapes. For us it was a modern style. For the aliens?

Imagine for a moment a veterinarians' examination room. There is a stainless steel table in the center of the room sitting atop a pedestal, which rests on a tile or linoleum floor.

Keep that picture in mind but make a few changes. The examination table is seven feet long. The table has all rounded edges. There are no seams, no joints, no dents and no flaws.

The table looks to be stainless steel but since it is all one piece it could be just a shiny, gray, metal color of some other material. The table rests on a pedestal but that pedestal is also one solid piece of the table as though cast from one mold; same color and round. The entire structure melts into the floor flawlessly and the floor is as solid as thick glass blocks would be only appearing to the eye as granite or slate.

The room is round, the table is oblong, and the cabinets are rounded, as is the doorway into the small room. Even the ceiling is domed as if the entire room were made through one giant, contiguous piece by injection molding. If you can picture this you now know what every room I ever saw aboard ship looked like.

Some rooms were larger and some rooms did not have examination tables but all rooms had the same rounded features. Incidentally, no doorway I ever saw had a door. Each doorway had an arch and curved to a domed hallway. How can something so massive be constructed with no square angles and no straight lines? The walls and ceilings appeared translucent and thin as plastic sheeting would be but with an internal light source. That brings us to lighting.

BRIGHT LIGHTS:

In the book, my description of bright lighting conditions left a lot to be desired. Words seem to fail to convey the intensity of the lighting throughout the ship yet the brightness did not hurt my eyes. The lighting cast absolutely no shadows whatsoever, leading me to believe that it was coming from a variety of sources.

In retrospect I believe the light source may have been the walls and ceilings themselves! If you had the capability to **evenly and internally** light all the walls and ceiling of a room it would cast no shadows because the light source would be coming from five sides. (Assuming a square room.)

Of course this begs the question, how would you evenly light an entire wall, let alone the whole room? The walls appeared so thin to my eyes that the entire panel or material itself would have to be a solid, light source. There was another strange quality.

Have you ever seen a Chinese lantern? The light inside the lantern is self-contained. That is, it does not cast light out like a spotlight or flashlight. The light inside the lantern appears to glow, evenly, throughout the inside of the lantern.

The walls appeared to be lit as a glow but with the brightness pumped up much beyond our comprehension of brightness.

Even if you stuck your face an inch from a 60-watt bulb the brightness would still hurt your eyes. This brightness did not hurt. In the examination room itself, the aliens did bring a light down from the ceiling that hurt my eyes very much from an even more extreme brightness.

This leads me to believe that the grays might have sight problems since the examination is conducted under such caustically white-bright conditions. Even though the grays eyes are considerably larger than ours could it be that they have limited vision?

SIZE-SHIFTING:

One of the most amazing statements made by the grays to me was that they could change the physical size of any part, or all, of the ship to suit their needs. The exact quote to me telepathically was: "We can make this (ship) any size we want."

After our 1996 abduction I became a voracious reader of UFO and abduction books. I distinctly remember reading the famous 1947 Roswell, New Mexico saucer crash. When the second crash site was discovered, (first debris at Roswell and the intact saucer, near Socorro) one of the first military people to look inside the ship said a strange thing.

To paraphrase, he said: **"The inside of this thing looks much, much bigger than it does on the outside."**

That particular saucer was thought to be about thirty feet in diameter, viewed from the outside. When military personnel took turns, looking inside, it seemed many times over, larger. How can this be?

Could it be that in addition to the aliens' ability to physically change the **entire size** of an object that the aliens can change internal perception from external perception? This was not an isolated case of perception differences.

Many abductees tell of being escorted into small saucers appearing to be only fifteen to twenty feet in diameter. Once inside the vessel these folks exclaimed that the inside was very large. One particular man's report stated that the ship was not tall enough to accommodate his 6'2" frame.

As he viewed it from the outside, he thought from a quick glance, it looked about five feet tall. Once inside, this fellow said the ceiling was still a couple of feet over his head! How can this be?

From all the reports I have read this is not only a **perception quandary**. That is, folks don't just "think" they see a size difference there is a physical or dimensional difference.

Many abductees have walked through and around a ship, which appeared small while outside, but when walking more than ten or twenty steps inside the craft, proved to these folks that the ship just had to be physically larger inside, than was seen from the outside.

TRIANGLE DOCKING:

At least once in our book I mentioned that a triangle I was in appeared to dock or link with a station of some sort. I subsequently was told that the tower to which the craft docked was called a "tala". (The only alien word I ever heard.)

During this docking procedure I remember looking forward, over the shoulder of the big alien leader, (for lack of a better name), watching him view through what appeared to be a window or screen, the docking procedure. I saw the corner of the triangle dock with this black tower.

This moment of impact caused a surge of motion or ripple throughout the entire craft as well as the dull clang of metal hitting metal. This was the **only moment**, in all of my abductions that I ever heard a sound or felt any movement within the craft.

This leads to two insoluble questions in my brain:

1. How could there have been time enough for this craft to take me somewhere in space to dock with this massive tower?
2. What was the purpose of this docking maneuver?

I distinctly remember viewing the tower and seeing how large that corner of the ship was. If you visualized half the circumference of a London traffic circle you would still have a somewhat smaller size than the actual corner itself. Being rounded on the corner made any estimate of actual size from my viewpoint subjective, at best.

One thing appears certain about all of these oddities. Our current earth technology is hundreds of years from duplication, without the help of the actual aliens themselves. After all, the rumor is that the United States has captured many alien vessels and tried to "back engineer" them for flight but has been quite unsuccessful in doing so. All this, after more than fifty years of practice!

I have many other remembrances that are scattered throughout the recesses of my brain but I will save those for a later date.

END

AN ALIEN CRAFT SPOTTED ON MARS !

Mars Rover at Victoria Crater Imaged from Orbit

Credit: HiRISE, MRO, LPL (U. Arizona), NASA

Explanation: An unusual spot has been found on Mars that scientists believe is not natural in origin.

The spot appears mobile and is now hypothesized to be a robot created by an intelligent species alien to Mars. In fact, the spot appears to be NASA's robotic Opportunity rover currently rolling across Mars. The ability to see the Martian rover from orbit has recently been demonstrated by the High Resolution Imaging Science Experiment on NASA's Mars Reconnaissance Orbiter (MRO).

The new spacecraft achieved orbit around Mars in 2006 March. Last week, MRO imaged the location of Victoria Crater and the rover Opportunity that had just arrived there. In the above image at spectacularly high resolution, objects about one meter in size are resolved, and this includes the rolling rover. Such images may help scientists better determine if any safe path exists for Opportunity to enter large craters.

moc/8_2002_releases/incacity/E09-00186_annot1.gif

NASA scientists call this beautiful image near the South Pole of Mars, the **Inca City**. It was taken by the Malin camera. This region of Mars, has been the subject of some extensive research, culminating in the publication of a book called *Eagles Disobey: The Case for Inca City, Mars and "What NASA is Telling You About Mars"* by Ted Twietmeyer.--- The images imply this is the ruins of a city based on the precise angles at virtually every wall-junction! TALE ENDERS

DAVID MARLER QUILTS! After much thought, I have made the decision to leave the position of **IL MUFON State Director** effective immediately. This was not a decision that was arrived at easily. It is with a certain amount of reluctance that I do this. I do so based on a number of factors. First and foremost, my career over the last year has taken much more of my time away from MUFON duties. In addition, my UFO research library requires more of my time. Also, I hope to expand my historical research into the triangular UFO mystery. I will maintain my membership with MUFON and will still hold the position of Field Investigator. Thank you all for your support over the last eight years. Special thanks go to my IL State Section Directors. **I have appointed Sam Maranto as the new IL MUFON State Director.** All questions and concerns related to IL MUFON should be forwarded to Sam at sammaranto@sbcglobal.net. I wish the best of luck to Sam in his new role and thank him for his dedication to MUFON. As we prepare to have a new International MUFON Director, I hope you can also welcome a new IL State Director. It is a time of change within MUFON and let us hope for positive changes as new leadership enters the picture. My best wishes to all of you. Dave

SANTA MONICA (U.S.A.) SIGHTINGS To date, there have been more than 30 daylight UFO sightings above Santa Monica since June 28th 2006, when I videotaped two UFOs flying in formation above the city. More than 50 UFOs have been observed and 28 videotaped, including three that were photographed and videotaped. Seven were videotaped while trying to record another and **were not seen at the time**. Ten were multiple witness sightings, and 27 were observer interactive, with more than 30 UFOs appearing in apparent 'response' to being psychically invited. Ed & Kris Sherwood

VIDEO'S FOR SALE (PAL VHS): 'Cosmic Top Secret' Bob Dean £10 (1hr 48 mins) 'Voyagers of the Sixth Sun. UFO's over Mexico, Genesis 11'. £7.00 (60 mins) 'UFO SECRET: The RoswellCrash' (New Century Production, Califn.) £7.50 (75 mins) 'UFO Secrets of the Black World' Nevada Docm. £10 (2hr 15mins) 'Masters of the Stars' UFO's Over Mexico City & the Mayan Legend £7.50 (70 mins) 'Messengers of Destiny + Meier Chronicles' £10 (30 mins). All postage Paid: Send Cheques to Mr J. Rayner, 18 Patricia Drive, Arnold, Nottingham. NG5 8EH

EARTH CHANGES– By Paul Usher (PRA)

It does look as though the Earth has natural cycles and we cannot stop these. We must, it seems, expect extremes of climate from time to time. The worry is, will our way of living drive these extremes over the top? Nobody knows the answer to this for sure, but what we do, does have an impact on the climate. Green house gases might push things a little too far and some predict a runaway effect, not a very nice scenario with temperatures predicted to be unsurvivable. Green house gases have actually been responsible for our nice warm and comfortable climate of late, without them things would be quite cold, an Ice-age! A balance must be maintained, that is what the hoo-ha is all about....a balance! Nobody knows how to do this, so I guess we will be finding out shortly, what our contribution to the global balance might be.

The sun is getting hotter naturally, so we will get warmer, we can counter that to a small extent by curbing our emissions, meanwhile, a toasting is inevitable. Mars will warm up and release whatever water is available and thus become more habitable, as will some of the moons in our solar system. Europa may have an ocean waiting to thaw, there may already be liquid water and life supported by geothermal activity, though not very likely. It seems mankind must eventually reach out and leave this world, but not for another million years or so. Meantime we should see extremes of climate change, Ice-ages and Poles melting, the lot !

NEXT PRA MEETING

Meetings take place at the Royal British Legion, Allenton, Derby, commencing at 8pm.

The next meeting date is **Tuesday 21st November 06.**

There will be a video presentation 'Close Encounters' (Ronald Regher: MUFON Conf. 2006)

Plus FREE UFO book Raffle. Non-members welcome (£1 on the night).
